DETAILED ACTION

1. Claims 1, 3-21 and 63-97 are pending.

Response to Amendment

2. Applicant's amendment filed 10/2/03 in response to the previous Office Action (Paper No. 9) is acknowledged. Rejection of claims 1, 3-21 and 63-97 under 35 U.S.C. § 112, second paragraph (Paper No. 9, paragraph 12c) has been obviated. The rejections in items 12a and items 12c have been maintained. Applicants overcame the prior art rejection by adding proviso and by deleting some substituents, but the proviso introduces a new issue that needs a further rejection.

Claim objections

3. Claims 78-79 and 81-82 are objected to because of the following informalities: the term "piperzin" or "piperziny" is misspelled incorrectly. It should read as "piperazin" or "piperaziny".

In claim 1 (page 4, line 10), the substituents "-C(~S)-NH-alkylene-R 21" should read as "-C(=S)-NH-alkylene-R₂₁".

Claim Rejections - 35 USC § 112

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1, 3-6 and 63-72 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. There has been recited provisos in claim 1 "R₁ is not H" and in claim 63 "but R₁₆ ≠ R₁₅", but said provisos lack description. The concept of the definition of R₃ and R₄ depending on whether or not R₁ is H is a new concept. Also the concept for R₁₅ must be different from R₁₆ is a new concept. Even a negative limitation requires description, *Ex Parte Grasselli*, 231 USPQ 393.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, and 3-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention:

- a. Claims 1 and claims dependent thereon are rejected because the variable "R₂₀" is not defined. What is it?
- b. In claim 1 (proviso), the term "etser" should read as "ester."

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
